Beveled Edge Molding

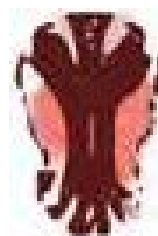

High-density perforated memory foam

FITS THE BODY LINES

The innovative 5Motion design combines 3D preshaped wings and a deep slit at the back bridged by vented mesh to allow for multidirectional motion and amazing comfort.

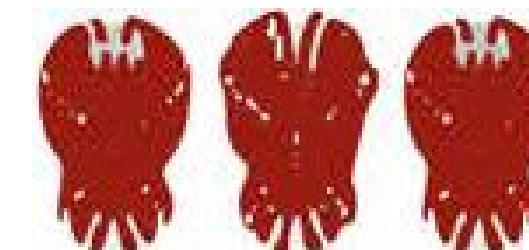

Developed with B.E.M. (Beveled Edge Molding) high-density perforated memory foam. This technology eliminates drastic drops of heights from one area to another, resulting in a smooth transition without pinching points to eliminate chafing.
